

Kushal Tripathi

Mathura, Uttar Pradesh, India | kushal.tripathi2006@gmail.com | LinkedIn

Summary

Computer Science undergraduate with strong foundations in Java, JavaScript, Python, HTML, CSS and Data Structures & Algorithms. Experienced in developing responsive web applications, debugging software and applying object-oriented programming through academic projects and software engineering simulations. Passionate about software development and eager to contribute to collaborative engineering teams.

Education

GL Bajaj Group of Institutions <i>Bachelor of Technology in Computer Science & Engineering (AI & ML)</i> City Montessori School	2024–2028 Graduated 2024
---	---------------------------------

Technical Skills

Programming Languages: Java, JavaScript, Python, C
Web Development: HTML5, CSS3, JavaScript, React, Responsive Web Design
Software Development: Data Structures & Algorithms, OOP, SDLC, Debugging, Code Review, Problem Solving
Tools: Git, GitHub, IntelliJ IDEA, VS Code, AWS Elastic Beanstalk, UML, ER Diagrams

Projects

- CivicAI – AI-Powered Digital Governance Platform** | GitHub | Live Demo
- Built a production-ready Generative AI platform that simplifies citizen access to government services.
 - Enabled citizens to report civic issues and receive personalized assistance through an intelligent AI companion.
- Student Management System**
- Developed a responsive Student Management System using HTML, CSS and JavaScript.
 - Implemented CRUD functionality, search, Local Storage, DOM manipulation, event handling and form validation.
- Cyborg Landing Page (IIT Bombay Campus Ambassador Program)** | Live Demo
- Developed a responsive promotional landing page using HTML, CSS and JavaScript.
 - Designed engaging UI sections, responsive navigation and interactive frontend components.
- Nike Shoes Landing Page** | Live Demo
- Developed a responsive e-commerce landing page using HTML, CSS and JavaScript.
 - Implemented mobile-first responsive layouts and interactive UI components.
- Personal Portfolio Website** | Live Demo
- Designed and deployed a responsive portfolio website showcasing projects, certifications and skills.

Professional Experience

Walmart Global Tech <i>Advanced Software Engineering Job Simulation</i> • Developed a custom heap data structure in Java to optimize shipping operations. • Designed UML class diagrams and Entity Relationship diagrams for scalable software systems.	November 2025
Datacom <i>Software Development Job Simulation</i> • Performed code reviews to identify software defects and improve application quality. • Debugged web application issues and suggested improvements for maintainability and performance.	October 2025
Amazon Web Services <i>Solutions Architecture Job Simulation</i> • Designed scalable cloud architecture using AWS Elastic Beanstalk. • Prepared technical documentation explaining architecture and optimization decisions.	October 2025
Tata Group <i>GenAI Powered Data Analytics</i> • Applied Generative AI tools to analyze datasets and generate actionable insights.	April 2026

Achievements

- 2nd Runner Up – N8N Hackathon 2025
- Most Innovative Solution Award – HackAura Hackathon 2025

Certifications

- Walmart USA – Advanced Software Engineering Job Simulation
- Datacom – Software Development Job Simulation
- AWS – Solutions Architecture Job Simulation
- Python Essentials 1
- Tata – GenAI Powered Data Analytics Job Simulation
- AI Tools Workshop
